SCAN ME

Tough, lightweight, and durable.

High-heat thermoplastic shell stands up to extreme conditions.

Superior comfort and fit.

Available with underbrim anti-glare strip, optional Comfort System interior, and a variety of accessories.

Versatile with multiple styles.

Available in cap and full-brim styles, plus an XL size option for max airflow.

New Goggle Access Points.

Thread goggle straps through the brim of our XL helmet for a secure, reduced gapping fit.

FH911XL Full-Brim Helmet

Now with Goggle Access Points: Choose the extra-large full-brim FH911XL to help accommodate a wide variety of head shapes. Easily thread goggle straps through the brim of the helmet to help reduce gapping, pulling, and snagging.

FH911HR Full-Brim Helmet

The preferred traditional look and feel style wildland helmet. Featuring a tough and durable full-brim helmet. The standard helmet in wildland firefighting.

FH911CR Cap-Style Helmet

Same toughness and durability as the FH911HR. Features a cap style giving a streamlined and low profile look while offering the same protection as the FH911HR.
