

AboveView™

*See What You've Been Missing
Patented See-through
Front Brim!*

- **Stable, Balanced Fit:** The AboveView includes the FlexGen™ ratchet suspension, which includes a large triangular knob for easy adjustments to achieve the perfect fit. The FlexGen™ suspension also includes a rear pivot pad which cups the rear of the head, improving comfort and helmet retention.
- AboveView™ is the only hard hat with a patented see-through front brim, and is available in clear, grey-tint and yellow tint. See hazards above and reduce strain on your neck when having to look up.
- The full brim provides all-round protection from the sun and glare, and the wide crown area allows for maximum airflow and enhanced ventilation.
- **Confident Head Protection:** Meets ANSI Z89.1 Type I Class E & G & CSA Type 1 Class E & G. AboveView™ and AboveView™ Elevate are third party tested and certified by Safety Equipment Institute (SEI) and CSA Group.
- **Rugged Construction:** The Bullard three-rib shell is made with durable, yet lightweight HDPE embedded with UV ray inhibitors to withstand the elements.

AboveView™ Elevate

- Elevate your protection to the next level with AboveView™ Elevate. The AboveView™ Elevate comes with all the benefits of the AboveView™ hard hat, but includes a 3-point non-elastic chinstrap.
- Chinstraps are critical in helping a hard hat stay on your head, especially in a slip, trip, or fall event. The chinstrap can be easily clipped on and significantly improves the likelihood of the hard hat staying secure.
- The AboveView™ Elevate can be used by workers who climb, work at heights, or anyone who needs a more effective means of securing the hard hat to the head.

Customization

Bullard uses state-of-the-art technology to imprint your company's logo or safety slogan. Whether the design is one color or six, it can be reproduced accurately, quickly, and inexpensively. Your company's logo can be printed in up to four locations around the hard hat. Reflective or non-reflective stripes can also be applied to increase worker visibility. We offer a fast, reliable, customer-friendly customization program.

Visit www.BuildYourBullard.com to customize your Bullard hard hat.
