

# USTM Camouflage Fire Helmets

Custom Design.

Traditional Style.

Express yourself on the job with Bullard's new Camo USTM Fire Helmets. The same classic style of the traditional UST helmet, now with a NEW camouflage look. Available in two color designs: camouflage and pink camo.

## Tough and Durable

The outer shell of the USTM is made of Thermoglas® and is more resistant to chemical attack and more stable at extreme temperatures. In addition, the dual-purpose CFC-free urethane foam of the M-Pact Plus inner liner provides superior impact and penetration protection, as well as heat insulation. This stable, high-heat foam is coupled with a super tough nylon inner shell for durable protection.

## Custom Comfort

All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

## M-Pact Plus Molded Inner Liner Cap System

USTM helmets include the M-Pact Plus molded inner liner impact cap system that provides superior durability, resistance to heat, and thermal rise protection. It also keeps the helmet shell secure and stable, and the molded goggle grommets allow for greater goggle comfort, support, and performance.

## Premium Quality

The intricately carved brass eagle or Canadian maple leaf proudly adorns the front of Bullard USTM helmets. The quality, durability and pride of these brilliant leather front holders are a statement of patriotism in the fire service. All Bullard leather front holders are capable of accommodating every leather front on the market today. The brass eagle comes in both 5-inch and 6-inch sizes.

For maximum visibility, even in extreme heat, USTM helmets come standard with high quality Scotchlite® striping, which retain reflectivity at 500° F. Another standard premium feature is the Bullard Sure-Lock® ratchet headband, offering both easy-turn sizing and a unique three-position height adjuster to create a completely personalized fit. The USTM helmet is also equipped standard with a leather ratchet cover.

## NFPA Approved

The USTM fire helmet exceeds the NFPA 1971, *Standard on Protective Ensemble for Structural Fire Fighting and Proximity Firefighting*, 2013 Edition.

## Online Leather Front Ordering

Personalized leather front ordering has never been easier! Design your own leather front, right online at [www.BuildYourBullard.com](http://www.BuildYourBullard.com).

## Integrated Helmet Lighting Available

The USTM fire helmet is available with Bullard TrakLite® helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation.

Pink Camo design also available!

# USTM Camo Fire Helmet

## Technical Specifications

Dimensions: 15 5/8" L x 12 1/4" W x 7" H

Outer Shell Material: Fiberglass

Inner shell material: Non-CFC Urethane foam

Suspension: 6-point nylon crown strap with crown pad

Warranty: Date of Manufacture; five years on shell, ten years on non-electronic components

### 1 Tough Thermoglas outer shell

Increased stability at extreme temperatures and improved resistance to chemical attack. Pigmented resin color throughout the shell minimizes visibility of chipping and cracking.

### 2 M-Pact Plus molded inner liner impact cap system

Protects head against heat rise and provides an extra layer of protection against falling objects.

### 3 Carved brass eagle/maple leather front holder

Intricately-designed brass eagle or maple leaf front holder accommodates any leather front.

### 4 Custom leather front (sold separately)

Personalize your helmet with custom leather front; many options available.

### 5 4" optically correct faceshield or ESS Goggle

Optically correct faceshield eliminates distortion and reduces eye stress and fatigue; or choose industry-leading ESS goggles.

### 6 Nomex® ear cover

Nomex is a heat and flame resistant fabric made by DuPont.

### 7 Chinstrap with postman's slide

Easy to adjust and secure

### 8 Sure-Lock® ratchet headband with comfort brow pad (leather brow pad optional)

Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

### 9 Leather ratchet cover

Durable and comfortable leather ratchet cover is replaceable in case of damage.

### 10 Scotchlite reflective striping

The highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

### 11 Brass D-Ring

Large, durable D-ring allows you to hang your helmet on virtually any size hook.

### 12 Crown straps with crown pad

Comfortable 6-point suspension system with soft crown pad that provides an extra level of comfort while wearing the helmet.

### 13 Three position ratchet height adjuster (not shown)

The height adjuster is the base of our 12-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

### 14 TrakLite® Integrated Lighting (not shown)

Available with Bullard TrakLite helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation. Select models can also be retrofitted to include TrakLite.

## Traditional USTM Helmet NFPA 1971-2007

- M-Pact Plus molded inner liner impact cap system (R920)
- Sure-Lock® ratchet headband (R637)
- 6-point nylon crown straps with crown pad (R112)
