Simplicity and longevity define the Bullard QXT Thermal Imager, equipped with X Factor technology and the industry’s longest battery run time. With the QXT, firefighters can focus on seeing the most critical details so they can make life-saving decisions while in the heat of the fire.

**INNOVATIONS for the Fire Service**

The Bullard QXT is designed not only for long-lasting service on the front line but also low total cost of ownership in the back office. It is purpose-built for today’s fire service including the industry’s:

- Longest battery run time
- Best image quality
- Most desired form factor
- First wireless charging systems
- Proven durability
- Leading warranty

**Unmatched PERFORMANCE**

The image clarity you have come to expect from the X Factor Family is further refined in the QXT. Equipped with an ultra-high performance LCD display that greatly increases brightness and contrast, the QXT lets firefighters see more clearly in smoke and direct sunlight. Bullard’s QXT can exceed eight hours of continuous run time for the ultimate performance in fire conditions.

**ADVANCED Features**

The Bullard QXT is loaded with advanced features including Super Red Hot colorization, intuitively highlighting high-heat scenes in brilliant shades of yellow, orange, and red, and temperature measurement in numeric and relative heat indicator formats. Optional features include Bullard’s exclusive Electronic Thermal Throttle®, which enables firefighters to optimize scenes with the touch of a button, 2X/4X Digital Zoom that allows firefighters to get closer to the action, and Bullard’s SceneCatcher Digital Video Recorder that allows firefighters to capture five hours of video and store hundreds of still images.

**SIMPLE Operation**

Like the popular LDX, Bullard’s QXT is distinguishable from other thermal imagers by its uniquely focused compact ergonomics designed specifically for the fire service. The imager’s power button design enables easy powering on and off with a gloved hand. Additionally, multiple colors are available for departmental identification. The wireless charging systems are compact, simple, and allow for easy continuous use.

**Bullard TOUGH**

The QXT is built Bullard Tough for the way firefighters work. The imager comes standard with a five-year, industry-leading warranty not only on the QXT but also on the battery.
